The Easter and Spring Collection

Our chocolate range with English-language packaging

13 hand-scooped Easter chocolates with wonderful fillings and beautiful designs are waiting for you. New products are the »Easter Toffee« with a soft toffee filling and the »Hot Chicken«, now a hand-scooped chocolate – of course with homemade eggnog. We also produce all the pralines, fruit mousse varieties and all other fillings ourselves. And our chocolate is entirely homemade at our chocolate factory, bean to bar, from the harvested bean all the way to the finished product. Our short new videos will give you a glimpse into our chocolate production process so you can see for yourselves how we do what we do.

»From the Easter Bunny«, coming straight out of our Cheery & Nuts range, a duo of strawberry couverture and cashew praline, is now available with English-language packaging. We've also got some new, handmade Easter bunnies and Easter eggs from our Mi-Xing range, all-new bonbon varieties presented in the »Funny Bunny« bonbon box and the popular Choco Lolly »Strawberry Bunny«.

For Mother's and Father's Day, we are happy to offer hand-scooped gift chocolates like »I Love You – Soooo Much!«, »For The Most Amazing Mum Ever!«, »For the Best Dad in the World!« and many more. More deliciously sweet gifts: our small hand-scooped chocolate minis, the pure Labookos and lots of new, colourfully decorated Mi-Xing hearts, flowers and cars, all made individually by hand.

Spring and summer will be fruity! Hand-scooped chocolates with very berry and fruity fillings, small chocolate minis ideal for gifting, and a dark »Squaring the Circle« chocolate, sweetened with only coconut and mango, will fill your shop with fresh spring and summer vibes.

100% ORGANIC + FAIR + BEAN-TO-BAR

Our entire business is Fair Trade verified. We are a member of WFTO – the World Fair Trade Organization, which is the umbrella organization for global fair trade. The WFTO monitors business compliance with the 10 principles of fair trade like transparency, respect for the environment, the payment of fair prices and no use of child labour among others. For more on this, go to www.zotter.at/fair-trade and www.wfto.com

100% BEAN-TO-BAR: Zotter chocolates are produced starting from the bean in our bean-to-bar chocolate factory.

All the ingredients for the chocolate come from ORGANIC cultivation. The number of the organic board of control serves as identifying information. ORGANIC control number: AT-BIO-402

THE PROTECTION OF THE ENVIRONMENT

is a very important aspect of our corporate philosophy.

Our environmental protection and our environmental measures are ISO 14001 and EMAS certified. EMAS-certified companies are recorded in a Europe-wide register and are regularly checked and monitored on a national level by environmental experts approved by the environment department.

You can find our environmental declaration in German online at www.zotter.at

BIOPLASTIC

If possible, we try to use bioplastic as much as possible: it is derived from renewable materials, is biodegradable and even compostable according to European Standard 13432.

DESIGN

Designed by Andreas H. Grätze

We use certified paper and environmentally friendly colours for the packaging.

ORGANIC SOY LECITHIN

Zotter uses lecithin exclusively from controlled organic cultivation. Organic soy lecithin is guaranteed free from genetic engineering and protects the environment because no rainforests are cleared for its cultivation.

STORAGE ADVICE

We do not use any artificial stabilizers or preservatives. For this reason, our goods are more temperature sensitive than other high-quality chocolate products.

Ideally you should store Zotter chocolates in a cool and dry place where the temperature is between 16 °C and 18 °C.

You should not put the chocolates into a fridge. This way they would lose their substance because the humidity would let the sugar crystallise. If the temperature is too high, though, it will result in the emission of cocoa butter which will settle as a white film on the surface of the chocolate. The loss of the cocoa butter will dry out the chocolate – hence, the flavour of the chocolate will suffer.
